Skills

Java, Ruby, JavaScript, SQL, HTML, CSS, Spring Boot, Cassandra, Linux, Ruby on Rails, Ember.js, PostgreSQL, JIRA, Rake

Experience

Apr 2021– Apr 2022 — **Software Developer**, *iVoyant*, Remote.
- Worked on expanding internal onboarding documentation as well as the Javadocs and OpenAPI/Swagger docs for our APIs.
- Maintained and architectured microservices for customer relations management and support for Cricket Wireless.
- Used Spring Boot as our main framework, Cassandra for our database, Redis for caching, and Kubernetes to scale endpoints as necessary.

May 2019– Nov 2020 — **Software Developer**, *Finsync*, Research & Development, Remote.
- Full-stack developer with a Ruby on Rails backend with Ember.js frontend.
- Troubleshooting issues regarding the user interface.
- Initiated a project for switching account synchronization providers.

Spring 2019 — **Class Project: Pathfinder Assistant**, *Georgia Gwinnett College*.
- https://github.com/dchssr/pf-assistant
- Digital character sheet for the Pathfinder table-top role-playing game.
- Primary architect of the problem domain.

2017–2019 — **Helpdesk Assistant**, *Georgia Gwinnett College*, Lawrenceville, GA.
- Student worker at the GGC Helpdesk.
- Helped students and faculty with their school-wide accounts.
- Set up hardware and arranged replacements for faculty.

Education

2016-2019 — **Bachelors of Science**, *Georgia Gwinnett College*, Lawrenceville, GA.
Software development concentration
- 3.33 Cumulative GPA
- President's List
- Upsilon Pi Epsilon member
